

Croatia

Everything because of you. Vipnet

Vipnet d.o.o. was founded in 1998. In September 1998 Vipnet received its second GSM licence. In 2004 mobilkom austria increased its shares of Vipnet to 100 %.

In 2008 Vipnet's mobil penetration rate rose by 16.3 percent to 133.6 %. Vipnet's core business in Croatia continued to develop well, but declines in wholesale roaming prices and the expiry of the national roaming agreement with a competitor had a negative effect on revenues. Total revenues rose by 1.8% to EUR 523.6 million.

The successful launch of services such as "IP Centrex" and tariffs such as "Best Fit" also demonstrated Vipnet's innovative strength and absolute customer focus.
