## **Caring with you**

Responsibility at the Telekom Austria Group means pursuing the vision of creating the best future for our employees and for everyone living in the information society now and in the future. We strive to realize this vision by committing to high quality standards, profitability and operational excellence as well as by placing special emphasis on social considerations and making a significant contribution to a knowledge-based society and healthcare. We seek to foster respectful collaboration with all our stakeholders. We grow in a sustainable manner and are committed to the triple bottom line based on an integrative approach to the economic, ecological and social aspects of sustainable management.
